11th February, 1920.

Dear Mr. Raymond,

I have just returned from the Lugano Sale and a business journey to Italy, which accounts for the delay in our reply to your letter of January 16th, which I wanted to answer personally.

First of all I wish to say that we unreservedly accept Mr. Howell's judgment as to the authenticity or non-authenticity of coins submitted to him.

Now that we see the Lampsacus AV Stater again - which presumably is the coin we sold you in August 1921 - we have to come to the conclusion that it is a forgery. This coin was purchased from a well-known collector in Athens, against whom we have now no recourse. You had the piece for several months on approval, and over seven years have elapsed since you sold it. We, of course, did not know that you disposed of it to Mr. Garrett, whom we certainly do not wish to suffer from our error of judgment, but we think that under the circumstances we should not have to bear the entire loss. Please let us know if you are willing to meet us, and we shall credit you with whatever sum you think reasonable.

450.

With regard to the Syracusan facing Arethusa, this coin was sold at the recent sale and passed by the experts present; there are other bidders who could

From

(Con.)

10th February, 1951.

may have been willing to purchase the coin. Now that Mr. Newell has declared it false, we should not think of offering the piece again, which becomes worthless. Our sole profit on the transaction was the sale commission, and others, especially Dr. Hirsch, were interested in the Bement Collection, which took place six years ago.

It is a pity that, if Mr. Garrett was not satisfied with it, he did not return it at least within a few months from the sale, when the proceeds could have been deducted from the result of the second sale.

I will write to Dr. Hirsch and hear what he suggests, and perhaps you may see him yourself, as he is in New York, and discuss the matter with him.

We want to do what is right, as you know, but it is hard to adjust a transaction which took place so many years ago.

Perhaps you will write to me direct before the firm decides on your judgment.

With kind regards.

Yours faithfully,

*L. J. Jones*

Dear Sir,

We beg to submit to you herewith  
the plaster casts of four coins, which we believe  
may fill gaps in your collection.

No. 1. The As, Luceria, of reduced weight.  
Sydenham 137. weight 76 grammes. £20.

4.56

No. 2. Quadrans of Tarquini. This piece  
does not appear to be published by  
Sydenham, but only by Garrucci, and  
seems to be the largest of its series. £5.

No. 3. Uncia of Melitum. This is the  
identical piece listed in Sydenham,  
plate 24. No. 4. No. 337. Although it  
is not the largest of its series, you may  
care to keep it on account of its great  
rarity. £12.10.0.

Dear Sir,

We thank you for your cable reply  
to our Marconigran, and beg to send you the  
Eufenia by the same post, registered.

Mr. Wayte Raymond has given us back  
the Syracusan tetradrachm, Arethusa facing, from  
the Bement Sale, Lot 513, which we purchased for  
him on your behalf and fetched 11500 Swiss francs.

We very much regret that this coin  
has turned out to be a forgery and that Mr. Newell  
has condemned it, and we do not want you to make  
a loss through our error of judgment.

We have been in communication with the  
Auctioneers, Naville & Co., but as Dr. Hirsch is  
not yet back from the United States, we have not  
heard.

We are willing to take our share in  
the loss, but naturally look to the Auctioneers  
who guaranteed the coin for redress.

As soon as we hear we shall let  
Mr. Raymond know and will settle this matter with  
him. Who in turn will credit your account of the  
loss.

Yours faithfully,  
For SPINK & SON, LTD.

Dear Sir,

We thank you for your esteemed favour of the 24th ult., and note that you have kindly kept the coins we sent on Approval Note 2048 for £102.10.0., for which we thank you.

We really did not know what the rate of exchange was when we purchased the coins at the Bement Sale, so we reckoned it at the present exchange. However, it is only just that you should have the full value credited to you, and we have, therefore, given you an extra £27.2.11., showing now a balance to your credit of £438.7.11., as you state.

It is quite understood that if we should not be able to send you coins to that amount during the next twelve months, we shall reimburse you what balance is due after that time, but we hope we may be able to tempt you with a few desirable pieces, both in the Roman and the Greek series.

We note that you expect to be in London later in the year, and we may then be able to show you some desirable coins.

With many thanks for all kind favours.

Sir,

We take the liberty of offering to your Excellency an exceedingly fine specimen of the very rare Panticapaeum gold stater of the 5th Century, and enclose plaster cast of it. It is similar to the Locker-Lampson specimen No. 121, now in the C. Gulbenkian Collection. The Grand Duke had 3; one went to Mon. Jameson, whose specimen this is, and which he is disposing of, as he secured another example; the third is in Mr. Courtauld's Collection. All three realised £500 the piece. M. Jameson wishes to sell his for what he paid for it, and we think this is an opportunity of securing this beautiful archaic coin.

We also beg to draw your Excellency's attention to the sale in Lugano, which our Mr. Forrer will attend, and of which we have sent you a catalogue. In the Aes Grave period there is the Tressis of reduced weight, Pl.11.15, which is unique, and which you might like to secure.

Hoping to be favoured with your Excellency's esteemed reply,

21st February, 1930.

His Excellency the American Ambassador,  
J.W. Garrett, Esq.,  
American Embassy,  
Rome,  
Italy.

Your Excellency,

We are under the impression that you have always been interested in the coins of some of the more unusual kingdoms which have existed from time to time within the period of Roman history, and therefore we take the liberty of bringing first of all to your notice one of the very finest little collections of the coins of the Vandals we have ever had the good fortune to secure. As you will probably remember, this kingdom, which did not last for more than about 100 years in North Africa, produced some quite interesting types, but the unfortunate part is that all these pieces are exceedingly rare. This little collection, of which we venture to send you a summary list, includes only picked specimens, and the silver coins, especially with the busts of the kings themselves, have in practically every instance perfectly complete and clear legends.

We have priced the coins individually as we are not sure whether this series is at all well represented in your collection, but

- From

- SPINK & SON, Ltd., London, S.W.I.

(Con.)

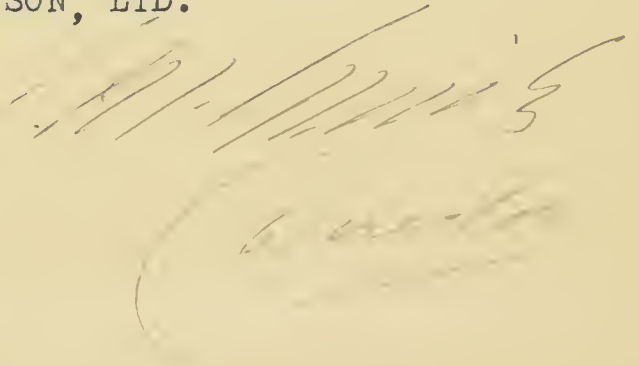

J.W.Garrett Esq.

21st February, 1930.

should you care to purchase the little lot complete, we should be ready to reduce the price to £140.0.0. for the 27 coins.

We are, of course, perfectly prepared to send the collection out for you to see - they can easily be packed in one registered envelope owing to their small size.

Yours faithfully,  
For SPINK & SON, LTD.

A handwritten signature in cursive script, likely 'J.W. Garrett', is written over a faint, circular embossed or stamped seal. The seal appears to contain text, but it is too light to read clearly.

Sirs:

I am interested in the Vandal coins that you wrote about in your letter of February 21st, but as I have already an important series of these coins of which I have no list with me here in Rome, it would not be worth while for me to buy the pieces you have as I shall probably be simply duplicating many of those now in my collection.

Very truly yours,

Your Excellency,

We are favoured by your letter of the 10th inst., which we have duly noted, and by the same post we beg to send you a plaster cast of an excessively rare Octodrachm of the Odomanti, a description of which we give below:-

Silver Octodrachm of the Odomanti (Before B.C. 480), with Rev. Head of Athena. Extremely rare. Only two have ever been offered by public sale; Egger, 12. XI. 13., Lot 473, realized £380; another, in inferior state, from Senator J. Karnichi, Leningrad, £241.

The present coin is the third specimen we have seen, and it is priced £300; but we would accept £270 nett for it.

We think that possibly this early archaic coin may interest you, and shall keep it reserved for you awaiting your esteemed reply.

With many thanks for all favours, we beg to remain,

Your Excellency's obedient Servants,

We take the liberty of offering you the two coins we are sending herewith. One is a beautiful Lampsacus gold Stater from the Warren Collection of Lewes, which we can offer you at £150; the last two specimens sold fetched well over that amount. Also, a small copper Valens tyrant, exceedingly rare; there was one in the Lucerne Sale which realised, with expenses, over £50, and it was by no means as fine. Dear Sirs:-

In reference to your letter of  
April 29th, the coins arrived in good con-  
dition.

Your letter of May 9th: I should  
like to see the Aureus of the Manila family  
if you could send it to me at the American  
Embassy in Rome on approval. I expect to  
be back in Rome about the 11th of August.  
The other three pieces mentioned in your  
letter I shall not want.

I am returning to you by registered  
post the Drachmas of Antiridates which I do  
not want. I am keeping the Berytus and  
the Syzantine pieces in the same consignment  
for which I enclose a draft to your order.

Sir,

We are in receipt of your favour of the 28th ult. enclosing cheque for £4.5.0.; also the returned coins are safely to hand. We send our receipted invoice for the two pieces kept.

We note that you would like to see the Aureus of Manlia, and have pleasure in enclosing it for your kind approval herewith.

As we were under the impression that you had left Italy, we have just addressed to you in America two extremely rare coins which have recently come into our hands. May we take the liberty of asking you to make arrangements that they do not get held up in the United States. If you could have them sent on to you, we should be very glad for you to have them under consideration, as they are both very important pieces. Or, if they do not appeal to you, it would greatly help us to have them back at your convenience.

Sirs:

I have your letter of July 24th and I do not want the Lampsacus gold Stater, and I cannot at the present time say whether I will want the copper Valens. I hope to have the catalogue of my coins here in Rome sometime towards the end of October, and I shall try to let you know then whether I want to add this piece to my collection or not.

Very truly yours.

Sir,

We beg to send to your Excellency Plaster  
Casts of three most interesting and important coins  
of the Aes Grave series, originating from Sutri:

1. Roman As. 255 gr. of the earliest period,  
which was found with the two Bars described  
below and gives a clue to their date.
2. Quadrilateral Bar, as Haeblerlin, Pl. 54, 1;  
chicken and two stars; rev. Trident.

The B.M. has only a very poor fragment,  
reproduced in Haeblerlin, Pl. 54, 6.

3. Quadrilateral Bar, cf. Haeblerlin, 42, 1 & 2.  
Trident; rev. handle of caduceus.

All three beautifully patinated, sulphurous  
colour, bluish green.

These Bars are of excessive rarity, and  
we guarantee their genuineness. They have been seen  
by the British Museum and very much admired. The  
price is £400 for the three.

Sir,

We beg to send to your Excellency plaster casts of three great rarities, which originate from a Princely Collection, where they have been perhaps for centuries.

The coins belong to the Longobardic series, and if they were offered in Italy by auction sale they would immediately be snapped up by eager collectors, several of whom are especially interested in this series.

We may state that the great authority on Longobardic coins, Monsieur Monneret, has examined them and expressed his delight.

The Ratchis is the second specimen known, and practically unique, as the other piece is in the Milan Museum.

Sir,

The enclosed sale catalogue has just come to hand, and we venture to send a copy to your Excellency, as it contains a very fine collection of Vizigoth and Ostrogoth Coins - the Vizigoth coins Lots 651 - 656 and the Ostrogoth, Lots 715 - 876.

This Ostrogoth Collection, we believe it no secret to disclose, is that formed by Dr. F.F. Kraus, who wrote on this series, and it is now being sold by order of the Court, this gentleman having, unfortunately, gone bankrupt.

HOTEL BRISTOL  
LUGANO

10. XII. 1930.

Your Excellency,

I have the honour to Enclose Sale Notes  
showing the coins purchased for you at the Sale.  
I am afraid in a few cases I was obliged to  
exceed your limit by a few francs, but this has  
been more than compensated on other bids & I  
trust I have acted rightly. Lot 269 the *Delia*  
*Verina* was so immeasurably superior to lot 270  
that I am sure you would have acted as I have  
done.

The coins themselves are travelling to London  
where they will remain pending your further kind  
instructions.

With many thanks

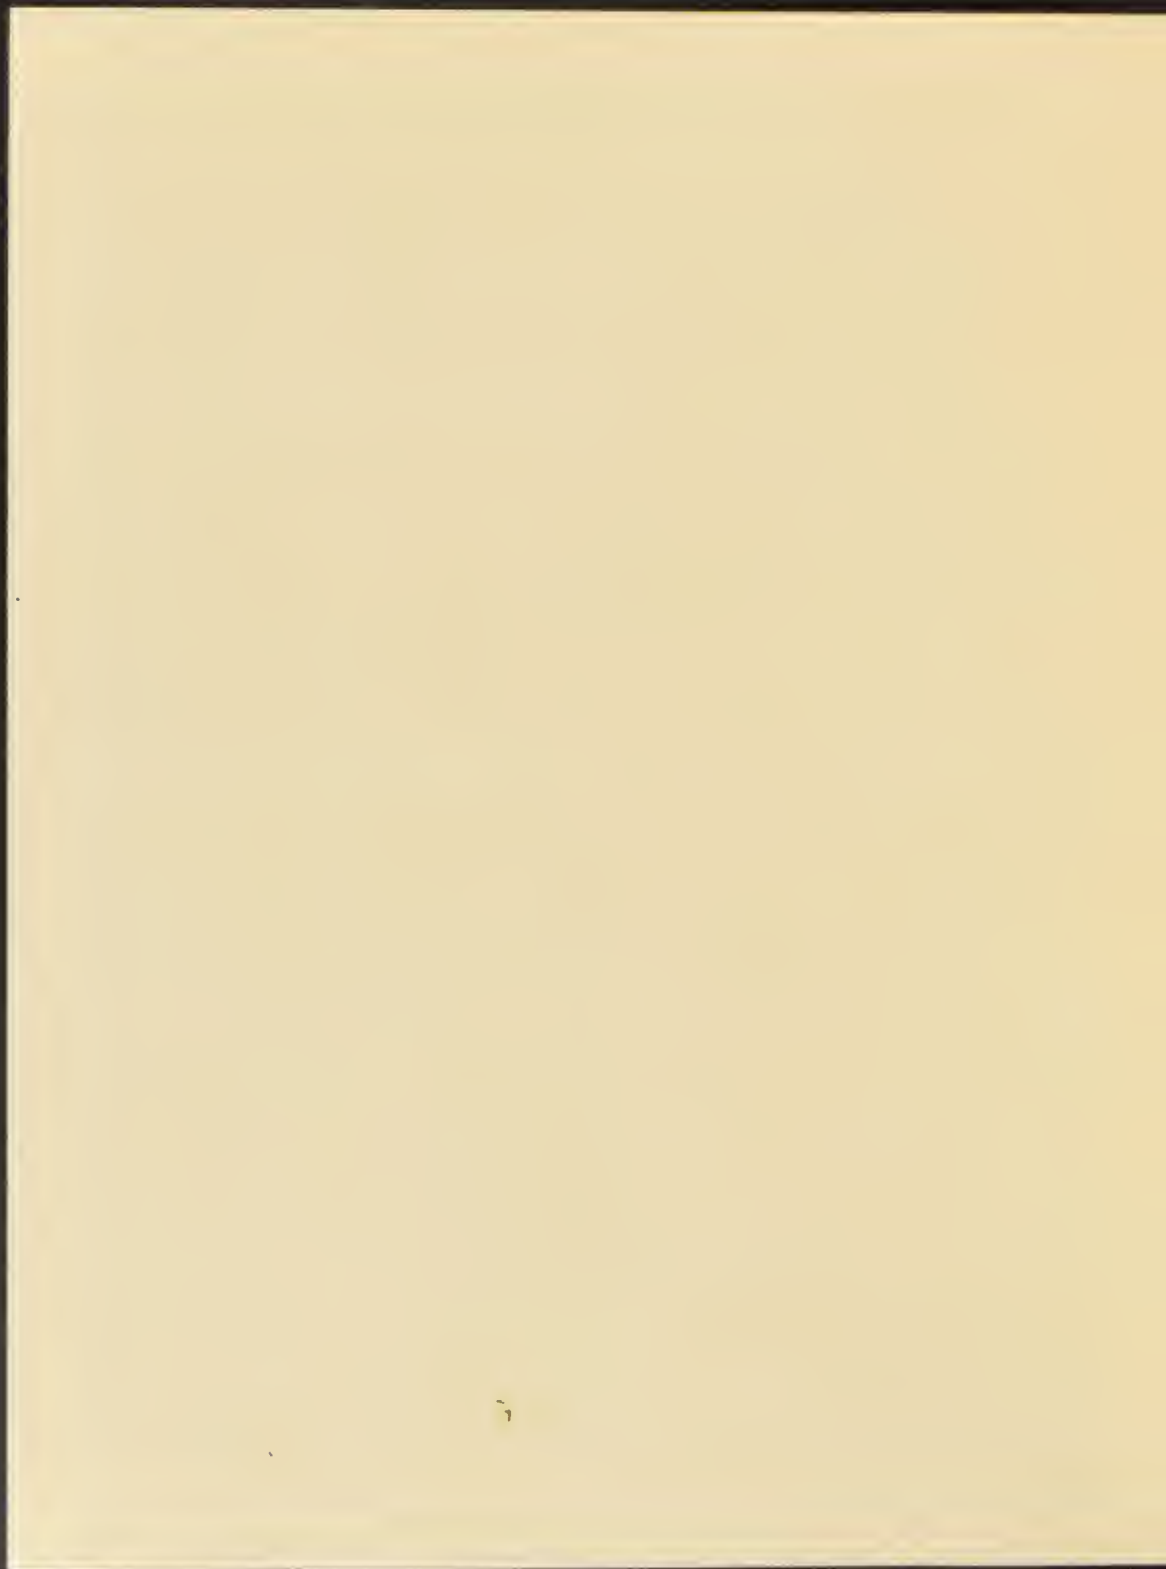

I have the honour to be, Sir,

Your Excellency's obedient servant

His Excellency  
John W. Garrett

Sir,

We trust your Excellency has received the copy of our letter of the 15th October, thanking you for keeping the three coins of the Aes Grave series and for commissions for the Byzantine Sale in Lugano. Our Mr. Forrer, Junr. has since communicated with you, direct from Lugano, on the subject of the Sale.

On November 22nd, we offered to your Excellency three Longobardic Tremisses of extreme rarity:

3 of Aistulfo. Pavia. Very rare £80.

From the same Collection we have now also acquired the following Tremisses:

Sirs:

I have received Mr. Forrer's letter in regard to the coins bought by you for me at the recent Lugano sale. Before sending my check in payment of them, I feel that I should look them over and I should therefore be much obliged if you would send them to me here, properly registered, and also the Roman Aes Grave that I purchased from you recently.

Very truly yours,

Sir,

You will remember that when you called some time earlier in the year you saw a copper saltire, or cross, which is used as currency at Katanga in the Congo, and you expressed the desire to acquire the specimen. Unfortunately, we were unable to sell you this, as that particular piece had already been sold and was awaiting shipment, but we are very happy to state that we have now come across another specimen. in perfect state, which we can sell at £7.10.0., and we shall be glad to know whether you would like us to keep this for you.
